Summary

Motivated Computer Science Engineering student with strong academic performance and a solid foundation in Full Stack Development, Proficient in Java, HTML, SQL, and basic DevOps tools, with hands-on experience through academic projects and internships. Strong problem-solving skills, quick learner, and passionate about developing scalable, efficient, and reliable software applications. Interested in leveraging technology for social good and continuously improving problem-solving and coding skills.

EDUCATION

- B.E CSE - V.S.B.

Engineering College Karur

2023-Present | CGPA -8.44

- HSE - Vetri Vikaas

Hr.Sec.School ,Namakkal

2022-2023 | 77 %

- SSLC - Vetri Vikaas

Hr.sec.School,Namakkal

2020-2021 | ALL PASS

PROJECT

AI Pass/Fail Predictor

- Technologies Used: React JS, CSS, JavaScript, Flask/Python (Backend), REST API
- Integrated frontend and backend using REST API for real-time prediction results.
- Designed a responsive user interface to input marks and display prediction dynamically.

AI-Based Smart Cart OPTimizer

- Technologies Used: Java, Spring Boot, React JS, MySQL, HTML, CSS, REST API, AI Recommendation
- Developed an AI-powered shopping assistant that optimizes user carts based on budget, nutrition, and preferences.
- Implemented smart product recommendations, cart management, and personalized optimization features using REST APIs and MySQL integration.

Tourism Industry Boost Platform

- Technologies Used: Python, Flask, SQLite/MySQL, HTML, CSS, JavaScript, Google Maps API
- Developed a tourism web platform for exploring tourist places, hotels, and travel packages with user authentication.
- Integrated Google Maps API to display tourist destinations and hotel locations for enhanced user experience.

INTERNSHIP

AI Full Stack Intern — Gen AI Tech Network

- Learned AI full-stack development concepts including RESTful APIs, AI microservices, NLP, Computer Vision, and ML model training using Google Collab.
- Worked with Generative AI, Git, and GitHub for project development, collaboration, and version control.

Java - Infosys Springboard

- Developed a full-stack web application for local service discovery and booking using Java, React JS, MySQL, and REST APIs.
- Implemented role-based authentication, service listings, booking management, and admin approval features.

TECHNICAL SKILLS

- Java
- Sql
- HTML
- CSS
- DevOps

SOFT SKILLS

- Management Skills
- Problem-Solving
- Creativity
- Critical Thinking
- Communication

ACHIEVEMENTS AND CERTIFICATE

- NPTEL Certification – Java Programming (Elite, 93%)
- Oracle Database Programming with SQL-Certification
- Cisco Network Academy-Cybersecurity
- Capgemini Hackathon – Participant
- (Problem Solving & Team Collaboration)
- Infosys -Java Programming and Development Fundamentals
